### Connect to your instance

Connection method ☒ A standalone RDP client ☐ Session Manager

You can connect to your Windows instance using a remote desktop client of your choice, and by downloading and running the RDP shortcut file below:

[Download Remote Desktop File](#)

When prompted, connect to your instance using the following details:

|            |   |
|------------|---|
| Public DNS | ec2-3-15-184-71.us-east-2.compute.amazonaws.com |
| User name  | Administrator                                   |
| Password   | o;5H2J9G0E4e1Nfb7j;syzkUCUF6LvvnV               |

If you've joined your instance to a directory, you can use your directory credentials to connect to your instance.

If you need any assistance connecting to your instance, please see our [connection documentation](#).
